Community Emergency Response Teams (CERT) Training

Volunteer groups such as CERT can be instrumental in helping professional emergency personnel in the initial days and weeks after a major disaster. CERT Training is designed to prepare you to help yourself, your family, and your neighbors in the event of a disaster. You and the community may be on your own for a period of time because of the size of the areas affected, lost communications, and impassable roads. CERT Training consists of basic understanding of Disaster Preparation, Fire Suppression, First Aid, Light Search and Rescue, and Disaster Teamwork. CERT training is a 20 hour course where participants will receive safety gear and a backpack with rescue equipment. In 95 percent of all emergencies, a victim or bystander provides the first immediate assistance on the scene. Would you know what to do?

This Course is popular and class size is limited. It is important that you register as early as possible. Go to their website to register. There is a $27.00 fee for this course. We are unable to accommodate telephone registrations.
