The Santa Rosa Plateau Emergency Taskforce (SRPET), in cooperation with the Riverside County Fire Department, Office of Emergency Services, maintains a comprehensive web site of resources for disaster planning. It’s an invaluable tool for residents of the Plateau communities to prepare for and survive disasters – fire, earthquake, flood, public health and other hazards. Visit www.SRPET.info today.

Plan ahead. Residents should have a plan in place for their family members, pets and livestock making sure everyone knows what to do and where to meet in the event of a disaster.

Be prepared. Take stock of what you have and what you need to be self sufficient. Do you have enough water, food and supplies for you, your family and pets?

Stay informed. Sign up and receive Early Warning Notifications on your cell phone number or business number. If you are not home, you can still be contacted in the event of an emergency.

Get involved. Get to know your neighbors. Attend a CERT (Community Emergency Response Team) training session. Call Riverside County Fire Dept, Office of Emergency Services for a schedule of CERT training, 951.955.4700.
